C&R News Update

All of us here at C&R hope all of you have a safe and happy holiday season. We have had a fantastic year and look forward to an even better 2011.

We sincerely thank you for the business you have directed our way throughout the year.

New Equipment

Last week our newest purchase from Mori Seki arrived. The NH5000, a new horizontal machining center with a pallet line, is installed and running. Our plan is to make this a fast-changeover machine, to allow for quicker processing on customers' orders. This machine will add to our capacity to allow us to grow with our customers' needs.

New comparator

We also purchased a new comparator with a Heidenhain control and 20 power magnification to better inspect smaller part features.

Celebrating **32**
years in business!

HAVE A HAPPY HOLIDAY SEASON!
